Dearest Brothers in North Carolina,

Your *Gathering* this weekend in North Carolina adds strength to the growing number of local *Gatherings* held in far flung places this year. Yours will no doubt carry with it a powerful spirit of love and devotion and will demonstrate the capacity to move hearts and inspire souls.

We call upon you to measure your success not merely by the number of participants but by the actions you will take from this experience to advance the aims of the Five Year Plan leading many to experience the cup of unity and spiritual happiness.

Brothers across the world await your news and offer their prayers and support to you as you manfully struggle to assert your presence and commitment to the standard of the oneness of humanity. Your name is on our lips as we celebrate your achievements and listen for the drumbeats of your hearts as you embrace those in your community with the power from above.

We look forward to hearing about your *Gathering*, its spirit and its successes.

With warmest greetings,

Dr. William Roberts
